

MiniLift160Classic

SystemRoMedic™

NEW
INCREASED
SWL TO 160KG/
25 STONE

The original MiniLift125 sit-to-stand mobile lift, now with an increased safe working load to 160kg/25 stone

Features

- Lifting capacity of 160kg
- Small, compact and convenient
- Easy to manoeuvre
- Ergonomic and easy-to-use hand control with 4 buttons
- Quick guide on the lift
- Grip-friendly handles with multiple options for hand placement
- Soft, adjustable lower leg support
- Low foot plate with anti-slip surface
- Lockable rear castors
- High capacity battery with long service life
- Control box with diagnostics, eg, lift counter and overload indicator
- Electrical emergency stop readily available on the control box

Benefits

- The MiniLift160Classic and ThoraxSling's work in harmony to provide a lifting experience that follows the users natural pattern of movement, providing support under the feet, lower legs and lower back.
- The MiniLift range bridges the gap between stand assistive devices such as the ReTurn family and passive hoisting. Encouraging client engagement during the standing task and enabling them to stand can have a positive impact on their psychological and physical wellbeing.

Other products in the MiniLift range:

MiniLift160Classic with low legs | MiniLift160EE | MiniLift160EM
MiniLift200 | ThoraxSling | ThoraxSling with SeatSupport | Calf Strap

Qualified to RoSPA Moving and Handling (level 4), your local Business Development Manager will be able to conduct a joint assessment (either virtually or face to face where appropriate) and provide a MiniLift160Classic demonstration with moving and handling best practice in mind.
